## CHINA'S RULERS MAKE GOOD THEIR ESCAPE.

### Dowager Empress, the Emperor and Prince Tuan Beyond the Reach of Their Pursuers.

LONDON, August 28.—A special dispatch from Shanghai says the Chinese officials there have informed the foreign Consuls that the Emperor, Dowager Empress and Prince Tuan have arrived in the neighborhood of Tai Yuan Fu.

Tai Yuan Fu is the capital of the province of Shan Si, adjoining the province of Chi Li, and is 240 miles southwest of Peking.

## Japan Still Pouring Troops Into Amoy.

HONGKONG, Aug. 28.—General Gotow, from the Island of Formosa (Japanese territory), commands the Japanese forces occupying Amoy. Large bodies of troops have been landed and Nordenfeldt guns have been mounted, commanding the city. Many Chinese are leaving. The British cruiser Isis sailed from here today under sealed orders. It is thought probable she is going to Amoy. Canton is quiet. The large merchant guilds are feeding the poor in order to prevent a disturbance.

WASHINGTON, Aug. 28.—In regard to the reported landing of Japanese troops at Amoy, the Japanese Legation received today a confirmatory telegram from Tokio, to the effect that in view of the fact that Amoy has, on account of its proximity to Formosa, frequently served as the basis of evil designs on the island, and in addition to the burning of a Japanese temple there have been riots against foreigners, the Japanese government has considered it necessary to land a small force for the purpose of protecting their consulate and the foreign residents at that port.

## Admirals Hold Li Hung Chang a Prisoner.

PARIS, Aug. 28.—Admiral Courrejolles, the French commander-in-Chinese waters, has cabled to the Navy Department here that a council of the Admirals has notified the foreign legations at Peking that it has been decided to hold Li Hung Chang on board ship until the opening of negotiations between the powers and China.

WASHINGTON, Aug. 28.—The sufficiency of Li Hung Chang's credentials as a plenipotentiary to conclude a settlement with the powers on behalf of China is now a subject for active telegraphic negotiations among the powers. It was stated positively today that so far the issue was still open.

Some of the powers have taken the ground that Li no longer represents anything tangible, that the fleeing Chinese Emperor and Empress Dowager are powerless to carry out any pledge, but none of them has, so far as can be learned upon inquiry here, finally decided this important question beyond recall.

## PEKING NOT IN HANDS OF THE CHINESE

### Our Officials Do Not Credit the Story.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 28.—No confirmation comes from any quarter of the report from Russian sources that the Chinese have captured Peking, and the War Department officials here discredit the story. They believe it is capable of explanation, however, when read in the light of Minister Conger's statement yesterday that all allied generals had decided not to enter the imperial palace, and also in view of the press reports of the sudden abandonment by the American and Russian troops of the attack on the palace gates after capturing four out of five of them. It is believed here that the allied generals adopted this course in order to prevent the looting of the palace.

It is probable that the relaxation of the effort to force an entrance into the palace gave rise in the Chinese imagination to the belief that the allies had been repulsed, and this was the basis of the report of the defeat of the allies.

WASHINGTON, Aug. 28.—The War Department today received from Lieutenant-Colonel Wint, commanding the Sixth Cavalry, the casualty list of the fight outside Tien Tsin, August 19th. It is as follows:

"Engagement near Tien Tsin, August 19th: Sixth Cavalry: Wounded, Troop A, trumpeter Fred Corrigan, heel, severe; privates Hall McCormick, arm and chest, severe; Samuel E. Hartfield, hand, slight; John H. Van Sickle, lance, knee and back. Troop E, trumpeter Lyon, arm, slight. Troop D, L. I. McAllister, thigh, severe. "All but Corrigan on hospital ship Relief."

WASHINGTON, Aug. 28.—The State Department has heard nothing of any intention to interfere with the movements of Li Hung Chang. The report from the French Admiral at Taku to the contrary is believed to refer to an incident of the past and not to the situation as it stands today.

When Li Hung Chang contemplated a visit to Peking by way of Taku and the Pei Ho, the foreign Admirals at Taku, at the time the ranking representatives of the governments, held a council of war to determine the amount of freedom to be allowed Li in communicating with the authorities at Peking.

It was announced that the Admirals had announced in view of the hostilities in progress that sound military practice required that Li should be kept under a strict surveillance. By imputation this carried the idea that Li might be kept, not on board a warship, but aboard his own transport in the harbor at Taku at the pleasure of the foreign Admirals. Neither Admiral Remey nor Admiral Kempff gave their sanction to this project, and it is said here that when Li abandoned the Peking trip by water the project was dropped.

It is a singular fact that Li Hung Chang's whereabouts are not known here. At last accounts he was at Shanghai, not in the foreign quarter, but away back in the Chinese Arsenal. Even with the aid of the foreign naval force now at Shanghai it would be difficult to prevent his escape on land, if Li should determine to retire from Shanghai. Nothing has been heard from him by our Government since the 10th instant. It is said at the Navy Department that Admiral Remey, who is watching matters closely at Taku, has not communicated with the Department today, and it is believed that important decision of this nature would be communicated immediately.

## CHAFFEE AIDS THE BARONESS VON KETTELER.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 28.—The War Department yesterday received the following: "TAKU, China (no date).—Adjutant-General, Washington, has offered Department assistance to Baroness Von Ketteler. Will furnish transportation and escort. Tien Tsin few days. Have offered transportation accommodations to Nagasaki also."

"CHAFFEE." Baroness Von Ketteler, the widow of the murdered German Minister to China, is an American, being a daughter of President Leidy of the Michigan Central Railroad, whose home is in Detroit, Mich.

## OUR CONSUL REPORTS ON AMOY RIOTS.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 28.—Adjutant-General Corbin has received a dispatch from Consul Johnson at Amoy, China, relative to the rioting in progress in that city. He reports that many of the richer Chinese and Europeans are leaving the place. A cablegram received at the Navy Department announces that the Chinese sailed today from Shanghai for Amoy in accordance with the department's orders. She should arrive there Thursday of this week.

## JAPANESE RUN OUT BY WHITE MEN.

### Railroad Hands Object to the Brown Men.

Associated Press Dispatches by The Tribune's Special Leased Wire.

GAZELLE, Cal., Aug. 28.—Eight Japanese having been recently employed by the Southern Pacific Company to take the place of white men on the Edgewood section, considerable feeling was aroused.

Last night after dark about fifty men congregated and taking the law in their own hands demanded that the Japs leave. Seeing that resistance would be useless, they obeyed and no violence was shown.

The men helped pack their effects and made them leave on the north-bound train, insisting that they should not stop this side of Hornbrook.

## BROKEN CABLE HURTS TWO MEN SERIOUSLY.

### A Most Peculiar Accident in the Southern Pacific Yards at the Foot of Kirkham Street.

Two men and a boy were seriously injured this morning at the foot of Kirkham street, where the railroad company is reclaiming an area of marsh land.

The injured are W. Church and John Stam, trainmen, who are severely hurt internally, and a boy named Jackson, who had his right arm broken.

The accident was due to the snapping of a wire cable by which an engine operates a dirt scraper.

## ATTORNEY PHILBROOK EXPOSED.

### His Only Object Is to Create Trouble.

### No Other Guardian for Merritt Heirs Will Suit Him.

Proceedings in the matter of the guardianship of the Merritt children began quite tamely before Judge Sweeney of Shasta this morning. Yesterday afternoon's talk had cleared the atmosphere and brought out the true inwardness of Philbrook's remarkable attempt to get possession of the estates of Fred A. and James P. Merritt and their minor children.

Smarting under the severe grilling given him by the attorneys on the other side, Philbrook revealed his bitter feelings toward the Merritts and the animus of his suit. He made it evident that it was his purpose to make this guardianship action the basis of an attack on the validity of every property transfer made since the inception of the Garcelon trust. Even that he characterized as the result of a conspiracy and in his oral opening he assailed the integrity of several well-known citizens who have not heretofore been brought into the matter.

When Judge Sweeney intimated that he was ready to appoint a suitable person as guardian for the Merritt children without further hearing, to which all the defendants assented, Philbrook made quick and energetic opposition. He wanted to go into all the matters connected with the formation of the Knowles trust, and to investigate everything and everybody connected therewith. His object appeared when he filed certain copies of various mortgages and deeds relating to the disposition of the Merritt property.

Judge Sweeney said he did not see their relevancy, but would admit them for the present. The defense filed a technical objection, stating, however, that the transfers were all proper, but were not subject to review in this proceeding.

At the opening Philbrook found himself short of money to pay costs. Judge Nussbaumer said that he was ready to put up one-half each day. Philbrook had only five dollars, while his portion of the accrued costs was \$7.50. He promised to pay the remainder tomorrow, and Judge Sweeney ordered the case to proceed, with the admonition to Philbrook that he must attend to the payment.

Mr. Bosley presented an offer signed by Fred A. Merritt and his wife, on behalf of Marguerite, Madie Burd, and John Sedgewick Merritt, their children, and James P. Merritt and his wife on behalf of James M. and Mary W. Merritt, their children, consenting to the appointment of general or special guardians ad litem of the estates of said minors on the following conditions: That if the Court, upon examination and consideration of the judgment roll in the case of Haskell et al. vs. Nussbaumer et al, and upon examination and consideration of the deed from Catherine M. Garcelon to J. N. Knowles as trustee, also in evidence, and upon an examination and consideration of all and singular the material allegations contained in the petition of Horace W. Philbrook, assuming for this purpose that the said allegations and each of them could be fully proved and substantiated by evidence to be adduced by the said petitioner, shall be of the opinion that this is a proper and convenient case for the appointment of either a general guardian of the estate of said minors, or a guardian ad litem to assert and vindicate the alleged property rights of said minors, the said Hon. Edward P. Sweeney may appoint any

## JUMPED FROM FERRY BOAT

### Burt Weldon of East Oakland Ends His Life in the Bay.

A boy about 18 years of age, Burt Weldon by name, whose home is in East Oakland, jumped overboard from the ferry boat Bay City on her 1:15 trip from this side of the bay today and was drowned.

Weldon boarded the boat with a number of friends and stood talking with those on the deck for a time after the boat left her slip.

As the boat went on out into the bay the boy made his way to the restaurant where he drank a cup of coffee.

After swallowing that he went into the bar-room and ended for and drank a glass of rock and rye.

\*\*\*\*\*

He then returned to where a crowd of his friends stood on the lower deck at the stern of the boat. Weldon stood gazing at the water for a moment, then turning to the crowd said: "Good bye!" and leaped into the water.

He came to the surface at once but apparently made no effort to save himself, although those on board the boat could see him floating about on top of the water for a considerable time.

The ferry was stopped after it had gone a considerable distance, but Weldon had disappeared under the water by that time, and no trace of him could be found.

\*\*\*\*\*

Philbrook promptly rejected the offer. He stated that his object was to rip things up, "expose a great conspiracy," as he termed it, and the petition for letters of guardianship was merely a pretext to give him standing in court.

O. C. Miller was called and testified as to whom he acted for in the proceedings relative to the Knowles trust, also from whom he held powers of attorney in relation thereto. The defense objected to all this as immaterial and irrelevant, but the court admitted the testimony. Philbrook promptly rejected the offer previously presented was not something for Philbrook to accept or reject, as he thought, but something for the court to consider. The alleged object of this proceeding is to protect certain property rights of the children. Whatever rights these possess are derived from the Knowles trust. A copy of that deed of trust has been submitted in evidence, together with a copy of the judgment dissolving the trust. These are matters for your honor to pass upon and not the petitioner.

"You overlook," said Judge Sweeney, "that Mr. Philbrook not only petitions for the appointment of a guardian, but petitions that he himself be appointed guardian. The alleged object of this proceeding will show his peculiar fitness for this guardianship. On that alone can it be based. For the present I will permit him to proceed on this line of inquiry."

Ex-Judge Charles Slack of Rodgers, Puterson & Slack was asked what talk there was between members of the firm and Philbrook relative to going to Washington to present the contest of the Garcelon trust to the Supreme court. Judge Nussbaumer objected on the ground that it did not relate in any manner whatever to these children or any property rights they may possess. Overruled.

Judge Slack testified to various conversations with Philbrook.

## NO LIGHT ON THE MYSTERY.

### The Murder of Kathryn Scharn Baffles the Detectives.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Aug. 28.—The mystery which surrounds the killing of Kathryn Scharn, a young girl, has not yet been cleared up by the police detectives, who appear to be completely baffled. It was admitted last night that they were still looking up the associates of the dead woman and her brother, with the hope that some of them may be able to throw some light on the case.

Little light is attached by the detectives to the theory that the woman was murdered by a sneak thief whom she surprised while he was rummaging her rooms. The detective say they are convinced that the crime was the work of a man who was well acquainted with the woman, and it is along these lines that they are working. Some of them are inclined to believe that the murder was committed by a friend of her brother's. The police say that the dead girl knew most of her friends and that some of them are known to the police as cheap thieves and young men with criminal instincts. They are frequenters of the neighborhood in which the Scharns lived.

Acting District Attorney McIntyre said last night that no attempt would be made to have Fred Scharn indicted for homicide on the evidence now in possession of the police.

"Young Scharn will not be indicted on the evidence we now have," said Mr. McIntyre. "There is nothing to connect him with the murder and I do not believe he had anything to do with it. If an indictment was secured on the evidence which has been collected up to this time we would not only be thrown out of court, but laughed at."

Coroner Fitzpatrick will on Friday begin his inquiry into the death of the woman.

## REBELLION IN PERSIA.

### Shah Too Progressive to Suit Old School Subjects.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Aug. 28.—A dispatch to the Times from Paris says: Your correspondent learns from a thoroughly well informed source that a serious insurrection has broken out in Persia which may in all probability cause the Shah's visit to Europe to be curtailed.

The object of the revolt is to dethrone the present Shah, whose fondness for Western ideas makes him unpopular to Persians of the old school, and to place his brother on the throne.

No details have reached here so far regarding the extent of success of this revolutionary movement, but a telegram announcing the fact has just been handed to the Shah in Brussels.

The Shah himself is disposed to make light of the affair, which, nevertheless, is extremely grave in view of the unsettled state of the Far East.

He has every confidence that the precautions in view of such a contingency which the Grand Vizier took before his master started on his European trip will prove sufficient to cope with the situation.

"The insurrection, however, has been very carefully planned, for it has taken the Shah and his Ministers completely by surprise."

## WILL TEST THE NEGROES' RIGHTS.

Associated Press Dispatches by The Tribune's Special Leased Wire. BOSTON, Aug. 28.—Gale S. Jackson, a negro lawyer of Richmond, Va., acting for the National Council of the Constitutional Rights Association, has employed ex-Attorney General A. B. Pillsbury of this city and Hon. W. C. P. Breckenridge of Lexington, Ky., as his counsel in proceedings which will be instituted for the purpose of bringing before the Supreme Court of the United States the question of the legality of the recently enacted statute, laws and constitutional amendments in some of the Southern States, which, it is claimed, tends toward the disfranchisement of the negro. The case will probably be brought before the courts of Massachusetts and will be carried to the Supreme Court of that State.

## ENGLAND BOYS AMERICAN COAL.

### Large Order Is Placed By the British Admiralty.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Aug. 28.—More shipments of American coal to England will be made this week. One of the consignments will be the order of the British Admiralty and will be sent by the Chesapeake and Ohio coal agency. Already this company has forwarded a supply of coal to the Admiralty. Never before have the naval authorities of England bought coal from a foreign country, and this fact in itself is evidence of the extreme scarcity which prevails on the other side. It is the opinion of coal dealers in this city that many millions tons of American coal will be sent across the Atlantic before the existing crisis is ended.

While the dealers who were seen yesterday would not commit themselves to any decided expression of opinion as to whether the present demand for the American product would be permanent, they did not hesitate to say that once having obtained a foothold in Europe the American producers would make the most of their opportunity. It was pointed out that now Europe has begun buying from this country there were many reasons why she would continue doing so. In England there are only about three varieties of coal, while here at least a hundred varieties are mined. Each of these varieties requires more or less different handling at the hands of the smokers, and one of the causes why this country's product has not been favored in Great Britain and in other countries is because the proper manner of using it has not been understood. This drawback is likely to vanish now. Again, in the past America has shipped only its poorest coals to Europe, to the detriment of her trade, a trade that now seems likely to reach an enormous volume. So she is longer to a policy, however, will no longer be indulged in by the American miners.

At the Berwind-White Company, the extensive wholesale coal dealers of No. 1 Broadway, it was said last night that the troubles in Africa and China were having much to do with the present conditions in the world's coal trade. One of the members of the firm said:

"England, you know, has been supplying all Europe with coal. Now comes the South African war, which calls for much tonnage, and the Chinese crisis, which is making all the civilized nations anxious to be ready for any emergency. To add to all this is the strike that England has had to endure. Is it much of a wonder, then, that the resources of Great Britain in the way of supplying Europe with coal should be taxed as never before? So many ships are being used for carrying coals for the war purposes that it is hard for England to get the bottom in which to send coal to those who would like to be her customers. That is one of the reasons why Europe is coming to us. It is all a matter of freight. No, I do not think that the United States under normal conditions can supply Europe with coal as cheaply as England can, on account of this matter of freight."

An official of the British Consulate said that any deal between the English government and American coal dealers for war vessels would not be a confidential affair. No news about England's coal situation had been received by the Consul General here, and all that could be said about it must be unofficial deductions.

## REUNION OF THE BLUE AND GRAY.

### Efforts Being Made for a Grand Gathering Next Year.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, Aug. 28.—An encampment of the Blue and the Gray, a great organization which shall include every man who fought for his principles, North or South, to be held in 1901, is the dream of a large number of the followers of the flag in '61, and the effort is to be made to secure the adoption of a resolution looking to that end, and which veterans must elect a commander-in-chief.

A. B. Leeper of Owaneco, Ill., is father of the plan, and he is working night and day to secure votes for his measure. Mr. Leeper is a delegate at large to the present encampment. He is past commander of Philip Baker Post, No. 611, and adjutant general of the Grand Army of American Veterans. His proposition simply put is, "Let us kiss and make up."

When the annual Illinois State Encampment of the Grand Army was held at Jacksonville in May last Mr. Leeper began his work of securing votes for the resolution which is to be presented here. The resolution follows:

"Resolved, That our commander-in-chief appoint a committee with full power to act to take the necessary preliminary steps to accomplish the object of having a grand reunion of the Grand Army of the Republic and the United Confederate Veterans, the Sons of Veterans and the Sons of Confederate Veterans and all their friends at some point yet to be decided upon, and begin the twentieth century with a general handshake and renewal of fidelity to our flag and the principles which it represents as an object lesson and grand illustration to the world of genuine Americanism, and to demonstrate the fact that 'peace hath no victories no less renowned than war'."

**DAGGETT CLAIMS HE IS INJURED PARTY.**

Allan P. Daggett has filed an answer and cross-complaint to the suit of Theodore Grady, through which he seeks to establish his services, alleged to be worth \$500 in the debt of the plaintiff Grady, who owns him that much and a great deal more.

Grady acted as an interpreter of the sign language once in a case in the Police Court in which Daggett was interested. He claimed to be an expert and demanded \$500 for his services. Daggett offered to settle for \$36, and stated that Grady, far from being an expert conversationalist, was a simpleton, and that he, Daggett, was a day interpreter of the sign language.

This impeachment set the Grady boiling, and he straight away attacked Daggett's place of business at 27 San Pablo avenue. Daggett claims that he damaged him personally to the extent of \$1,000 and his stock \$165.

## IMPROVEMENTS IN DR. WALKER'S DENTAL PARLORS

The steady increase of patronage bestowed upon Dr. C. H. Walker, a well-known dentist located in the Abrahamson Building, corner Thirteenth and Washington streets, has made it necessary for him to have more commodious apartments and as a result he has enlarged his present dental quarters by fast increasing practice, and when completed by September 1st Dr. Walker's dental office will be by far the largest and best equipped of any similar offices in Oakland and equal to the finest on the Coast. Five dentists will be utilized, and the Doctor will make a specialty of treating teeth without pain, and that means much to those afflicted with tooth trouble. His workmen will always be the best, and his prices as consistent as possible with the work done. Dr. Walker has practiced dentistry in Oakland for over 15 years and his hundreds of patients in his best recommendations as to the class of work he does, which is a guarantee enough that the gentleman in question is a practical man in his chosen profession. Under the present adequate facilities Dr. Walker will be better prepared than ever to accommodate his many patrons and to meet the rapid increase in his practice which he is gaining every day.

## WARSHIP MAY SCARE SULTAN.

### Morocco's Ruler Owes Reparation for a Murder.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Aug. 28.—A special to the Herald from Washington says: Just at this moment the Sultan of Morocco need not be alarmed at the appearance of an American man-of-war in the harbor of Tangier.

Officials of the State and Navy Departments say that the report published this morning that an American warship had put in at Tangier for the purpose of compelling Morocco to pay an indemnity for injuries sustained by an American citizen probably has its origin in a guilty conscience.

An American naturalized citizen named Marcus Azoulay was murdered two months ago by a mob in the town of Fez, the crime was immediately reported to the State Department by Mr. Gummere, Consul General at Tangier, and he was instructed by cable to request the French Consul at Fez to make an investigation. The report of the French Consul has not yet been received, but Mr. Gummere has reported that during the investigation he made a demand upon the Moroccan authorities for the apprehension and punishment of those guilty of the murder.

No report of the arrival of an American warship has reached the Navy Department, and it is presumed that the vessel to which reference is made is the Massachusetts State nautical school ship Enterprise.

The itinerary of this vessel calls for her arrival at Tangier on August 21st and her departure on August 26th.

If her presence has stirred up the Moroccan authorities to compliance with the demands of Mr. Gummere the State Department will be well pleased with the visit of the Enterprise, notwithstanding the fact that it had no hand in arranging the itinerary.

## HAVE PROVEN QUITE POPULAR.

### The Tahoe Excursion to Be Repeated This Week.

## OAKLAND WOMAN ROBBED BY BOLD SNEAK THIEF.

A well known Oakland woman was the victim of a bold thief in San Francisco yesterday afternoon. Mrs. C. E. Cotton late yesterday morning was complaining to the San Francisco police that she had been robbed in a most peculiar way. She went into Samuels' shoe store on Sutter street for the purpose of making a purchase. She seated herself at a counter and laid a purse containing \$20 and a small handkerchief on the counter. The clerk proceeded to wait on her and when she came to pay for the goods she had bought she was startled to discover that her purse had been taken.

A thorough search of the premises was made, but the missing article did not turn up. She then hurried to the police and a chief relieved Mrs. Cotton of her valuables while she was busy examining goods.

## ESTATES OF THE DEAD.

Katherine I. Watt has petitioned for letters of administration on the estate of her husband, who died June 2, 1900, in the State of Chicago, Mexico. He left an estate consisting of personal property valued at \$10,000, and real estate in the State of California, and the petitioner and a minor son, Grevin Watt.

Letters testamentary on the estate of Patrick McGarry, who died in Florida, were issued by the probate court in the city of San Francisco, and the Public Administrator.

William Mullins, one of the executors of the Catherine Lambert will, has filed an answer to the petition of Annie Quilan, sister of decedent. He denies all the allegations of the contestant.

The sale of the following property of the Charles Johnson estate has been confirmed by the Superior Court: Hyde and O'Farrell streets, San Francisco, \$14,000; sixty-seven acres in Fruitvale, \$5,362.50.

## Prevented a Tragedy.

Timely information given Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her away from her duties. She had tried many remedies and doctors, but steadily grew worse until urged to try Dr. King's New Discovery. She bought a bottle and used it and writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the marvelous merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1. Every bottle guaranteed. Trial bottles free at Geo. W. Bro's Drug Store, cor. Seventh and Broadway.

# POND'S EXTRACT

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

## IN THE FIELD OF SPORT.

The Golden Gate Association has completed arrangements for the annual meeting to be held at Emeryville beginning September 22d and closing September 28th. In addition to the racing there will be a live stock exhibit for which liberal prizes will be given, a poultry show and an exhibition of all kinds of agricultural implements.

The guaranteed stakes for horses to be named with entry September 30 are: Trotting—No. 1, 230 class, \$500; No. 2, 230 class, \$500; No. 3, 230 class, \$500; No. 4, 230 class, \$500; No. 5, 230 class, \$500; No. 6, 230 class, \$500.

Jimmy Coffey, C. W. Chappell, Peter Romigh and Tom Harris will meet at the Oakland track Friday night from Chicago with their horses. Mr. Chappell brought back three. He sold Taylor to Harry Schreder, who is going to the Coast to enjoy a winter shoot and the superb climate. I feel as if it was my home. I've had considerable talk since I arrived here of Whitney and Keene sending stables to California. It would be a great thing for the game there by raising its tone and it would create a new interest in the great breeding industry.

Dr. B. F. Kinder who will race a string out here during the coming season bought Miss Mae Day from H. Robinson last week for \$3500.

Boxing.

NEW YORK, Aug. 27.—Robert Fitzsimmons today announced his retirement from the pugilistic ring. He made an attempt today to put on a fight with James J. Jeffries, to take place before the Horton law expires, at midnight on Friday, and tonight issued the following statement:

"I am through with fighting. I will retire from the ring and will not fight any more. I am ready and on edge to meet Friday night, as his manager suggested ten days ago, but it is no use. I am in no condition to fight on that night. I am through with him and the ring. Henceforth there will be one man less in the heavy-weight division, for I will go out with the Horton law."

The San Francisco Athletic clubs are going to make a big thing out of the coming season. The National and Olympic Athletic Clubs, the two leading clubs in the Pacific Coast, are going to put on a twenty-five-round fight between Jim Jeffries and Robert Fitzsimmons. A purse will also be offered for the battle between McGovern and Jimmy Anthony of Australia.

Bill Chester, an English lightweight, is thinking of coming to this country in the fall. Chester was recently knocked out by Tommy Hogan of Chicago, but they say the fight was a fair one. He has the makings of a good man, Chester says he will fight either George McPherson or Jack O'Brien.

NEW YORK, Aug. 28.—James J. Corbett and Kid McCoy are both in fine condition for their fight Thursday night in Madison Square Garden. Corbett has been training faithfully at Bath Beach, L. I., and he is confident. His trainers are Dan Hawkins, Charlie Goff, Spider Kelly and Arthur Keady. McCoy has been training at Saratoga, and those who have seen him recently say that he weighs 165 pounds and is in condition to fight the hardest battle of his life. Many near by riders are confident that he will defeat Corbett. His principal trainer is Jack O'Brien of Philadelphia. He takes a daily ride of fifteen miles on horseback.

West Oakland Club.

Things at the club are taking on a more cheerful look at present, as the boys are starting in again to do gymnasium work, and in a short while things will be as lively as formerly. The club members are all in good luck. They did not waste any time about making it up, and in consequence the fighting was very fast. The preliminary bouts were good, and the first time the boys have been before the public.

The following were admitted to membership at the last meeting of the board of directors: J. Ponto, T. Russell, E. Laru and D. Coakley.

The boys are all keeping up their interest in swimming and a few are proving to be very good at it.

The fishing members of the club are arranging a fishing excursion next Sunday and intend to go to Red Rock, as it is reported that the fish over there are big.

Word has been received from F. Scotti, who is in Heidelberg, that he is enjoying himself greatly, but he misses the club and hopes to be with the boys again in a short time.

J. Simpson was home for a few days and visited the boys in the club, but left again Sunday morning for Santa Barbara, as he has secured a position at that place with the railroad company. He hopes to be with the boys again before the 1st of November.

### College Athletics

At the annual meeting of St. Mary's College Athletic Association, held recently, the following officers were chosen for the coming term: President, John P. Plover, '02; Vice-president, James P. Plover, '02; Secretary, John P. Callaghan, '01; Treasurer, Walker R. Jones, '02; Track captain, John T. Quinlan, '02. The baseball team was also organized and Arza Porter and Louis Ryan were chosen manager and captain respectively. The coming year promises to be a lively one in the athletic line on account of the large attendance at the college. Many improvements have been made, new baseball courts have been erected and a new eluder path and tennis court are in the course of construction.

### Reliance Notes

Superintendent Gross has about settled on his men for the next boxing night. There will be three ten-round contests between some of the best men on the coast.

Jack Capella, the club favorite, will be pitted against Curran or Herman; Don Hart, the clever fighter, will be matched against Doc Flynn, Jack Kane or some other good man; Charles Thurston may meet Henry Lewis, the clever fellow that knocked out Bert Woods in a short time ago. Woods beat Redmond at the club some time ago, Lewis beat Wood at Stockton and Thurston beat Redmond at the last show, so it is sure to be a good, lively go. The show will be held on some date after the 4th of September, and on that day a program given in Oakland will be presented. Boxing nights will be given every month hereafter and some first-class men will be on.

There were some lively matches in the bowling alleys the last week and a number of the men took part in them. Very high scores were made and it would be hard work to pick a winner in a scratch tournament.

The directors will arrange for a scratch tournament to be held some time in the near future and it is thought they will make arrangements for ladies to have the alleys certain afternoons during the week. It is very good exercise and the game is sure to make a hit.

The baseball team practiced at Freeman's Park Sunday and will practice several nights during the week. Assistant Superintendent Vard is arranging for a game next Sunday. Jack Donovan had charge of the team Sunday and he made them work good and hard. Jack Donovan is a good manager and will make a good captain.

Captain Sever has returned from a hunting trip to Mendocino county. He had good shooting and fishing and has some fine trophies of the hunt.

Handball is still very popular at the club and the court is busy all the time. The Jellott brothers and Mahoney and Williamson have started to play again. The boys always play a large game and when they smash the ball, for they keep things humming when they are in the court.

Henry Tresselt was one of the crew of the boat that lost the race in the California club races yesterday and Harry and the rest of the crew had to buy the quinners for three cents.

Bill Dehany left the first of the week for Harbin Springs, where he will remain for a few weeks. Billy expects to leave for the East in the near future.

Jack Jeffries is a frequent visitor at the club. He is training Tommy Ryan in San Francisco and he has been over a few times a week. Jack thinks Ryan is a sure winner in his coming fight with Billy.

Frank Freeman is an official umpire in the Oregon league and does not expect to return to Oakland for some time. The football team will start some time this week at the riding academy in San Francisco. "Pete" Smith will make charge of all the practice games and is a great believer in good, hard work.

The orchestra had its first rehearsal Monday night, about a dozen of the boys being present, and if one can judge from that rehearsal the orchestra has a brilliant season before it.

and the number of interests and industries it represents and the amusement and instruction it affords it is the greatest show west of the Mississippi river. The fair this year will include two weeks of racing between famous horses over a track recently prepared so that it is one of the fastest in America; a live-stock show, including all varieties of high class domestic animals; a poultry show of over a thousand birds, including all varieties of land and water fowls, standard and fancy; a dog show and a Belgian hare show, a machinery department, an art gallery, manufacture, agricultural and horticultural products, wines, oils, etc. Exhibits have been received this year from all parts of the State, and one of the largest crowds is expected this year which ever attended the fair. In addition to the various instructive features, amusements without limit will be provided—acrobatic, tight rope and musical specialties, slide shows and vaudeville entertainments. All of our people should visit the State Fair this year.

## ADMIRALS CLASH OVER EARL LI.

The Majority Decline to Accept Him as a Peace Envoy.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Aug. 28.—Sharp differences of opinion among the foreign Admirals at Taku as to Li Hung Chang's proper status were apparently the moving cause of the note of inquiry recently addressed by the United States Government to foreign powers in accepting the aged Viceroy as peace envoy of the Chinese government, says the Washington correspondent of the Herald.

Officials will say little about the dissension among the naval representatives of the powers. It is learned, however, that on Thursday Admiral Remy sent word that a conference of the Admirals at Taku had been held at which the arrangements for the arrival of Li Hung Chang and the terms of his mission were discussed. A proposition was made that Li Hung Chang should not be allowed, on reaching Taku, to communicate with Chinese officials in Peking. The proposition was acceptable to most of the Admirals, but the American officer declined to sign the agreement. Whether the Russian Admiral signed is not known, but in any event the Russian government promptly protested to the other powers.

Admiral Remy's mission was considered by the Cabinet, which entirely approved the refusal of Admiral Remy to be a party to any such agreement. Then the note of inquiry as to the attitude of the powers as to Li Hung Chang's acceptability as a peace envoy was formulated and sent out. The effect of the protests of the United States and Russia has been to secure practically the unanimous disapproval of the agreement of the foreign Admirals. Why the Admirals should wish to prevent Li Hung Chang from communicating with Chinese officials in Peking is not understood here. Seemingly it would be in the interest of peace for the Viceroy to be put in prompt relations with the imperial authorities.

From Minister Conger's dispatch it is apparent that the allies in Peking are not waiting for the arrival of Li Hung Chang, but are trying to get communication themselves with the Chinese officials. His message shows conclusively that there is no authority in the capital at this moment with whom the powers can negotiate.

## SUICIDE OF AN ENGLISHMAN.

Associated Press Dispatches by The Tribune's Special Leased Wire. EL PASO, Tex., Aug. 28.—Louis Boothroy, of Manchester, England, was here, the result of a dose of cyanide of potassium taken with suicidal intent. Boothroy, who is a relative of the Duke of Manchester, had served the English government in the civil service in India, for which he has since drawn a pension. He left an letter in which he stated that he was suffering from a nervous ailment, but it is known that he is also related to several prominent families in New York. Boothroy came to El Paso last winter, but left in April for Phoenix, Ariz., where he stayed until his return here Saturday. He has been despondent since his return but told no one of his troubles.

## CORBETT AND M'COY IN TRIM.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Aug. 28.—James J. Corbett and Kid McCoy are both in first-class condition for their fight Thursday night in Madison Square Garden. Corbett has been training faithfully at Bath Beach, L. I., and he is confident. His trainers are Dan Hawkins, Charlie Goff, Spider Kelly and Arthur Keady. McCoy has been training at Saratoga, and those who have seen him recently say that he weighs 165 pounds and is in condition to fight the hardest battle of his life. Many of his admirers are confident that he will defeat Corbett. His principal trainer is Jack O'Brien of Philadelphia. He takes a daily ride of fifteen miles on horseback.

Things at the club are taking on a more cheerful look at present, as the boys are starting in again to do gymnasium work, and in a short while things will be as lively as formerly.

The club members are all in good luck. They did not waste any time about making it up, and in consequence the fighting was very fast. The preliminary bouts were good, and the first time the boys have been before the public.

The boys are all keeping up their interest in swimming and a few are proving to be very good at it.

## ALLIES NEED DIPLOMATIC FORCEMENTS.

Formidable Force of Chinese Assembled Near Peking.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Aug. 28.—A dispatch to the Tribune from London says: The news of an attack on the Chinese forces assembling at Nanyang, outside Peking, is anxiously awaited, according to a Japanese telegram from Taku. A combined detachment of Russian and Japanese cavalry was to have encountered this hostile body on last Saturday. The Japanese are more successful than the rest of the combined contingent in getting through runners, probably because of their superior knowledge of the Chinese character and language, but even General Yamaguchi's message published at Tokyo yesterday was dispatched from Peking as long ago as August 18th. The Japanese General's telegram gives no hope of the capture of the imperial family, and, indeed, it would seem that this cavalry force abandoned the chase on reaching the village of Manzan, where its commander learned that the Emperor and the Emperor, under General Oda's escort, had started for the west.

The approach of 9,000 of the Shan Tung troops with fifteen guns to attack the line of communications in the rear of Peking emphasizes the necessity of further reinforcements. These Shan Tung men are among the best of the European-trained soldiers in the Chinese service, and have been carefully trained and organized under foreign instructors by the former Governor, Yuan Shih Kai. They are armed with German Mausers and Krupp long range guns.

With Peking and its suburbs to pacify and with these enemies to deal with outside, the allied commanders have none too many troops at their disposal. Being, moreover, not a self-supporting town, it has always to be fed by convoys of rice from the south, and if these are stopped it is urgently necessary that no time should be lost in clearing the line and getting up supplies from the coast.

The situation in the southern provinces is much complicated by the existence of unbridled revolutionary as well as anti-foreign movements. The nineteen men executed by a Viceroy are alleged to have belonged to the reform party, which cherished the intention of rising against the provincial authorities and ultimately overthrowing the Manchu government and restoring Emperor Su to power. This movement is said to be widespread through the Yangtze region and to be encouraged by the agents of King in Yunnan, who are largely financed by "reformers" (Chinese in Singapore, America and Australia). It is believed also to be working in close association with the famous Kolahean and other secret societies.

In fact, Southern China is in a disturbed and restless condition and further important developments are expected.

September 2. San Francisco Schuetzen Verein, Captain John Thode.

September 3. St. Rose's Parish of San Francisco.

TUESDAY, AUGUST 28, 1900.

Senator Hanna's rheumatism will not interfere with McKinley's running powers.

Thieves stole a couple of nickel-in-the-slot machines from a cigar store in San Francisco Saturday night. They must be figuring on starting up business somewhere and conducting their operations under the protection of the law.

Russia has ordered 5,000 live cattle shipped from the United States via San Francisco to China for the use of her troops there, the order being the largest ever received at Chicago. While probably none of the cattle will come from California, a good deal of the feed will, so we will get our full share of the benefits that way, to say nothing of the money circulated here for transports, sailors and so forth.

The champion prevaricator continues to hold his own in China. For three days he gravely informed the world that the Emperor had been captured and was in the hands of the Japs, and now comes the report that there is no truth whatever in the yarn. Whoever is responsible for this sort of thing must have a very vivid imagination, for, in addition to the thrilling details of the torturing and death of the legation, he gave us the story of how Admiral Seymour killed his wounded son that they would not fall into the hands of the enemy, the suicide of the Emperor and Dowager Empress, the death of Prince Tuan, the suicide of Li Hung Chang, the flooding of the Pei-Ho Valley, the declaration of war first by Russia and then by Russia, Germany and Japan combined, and finally the capture of the Emperor. The gentleman in question evidently hits the pipe regularly every day and then tells the world his dreams when he wakes up.

Lynching has received a backset where least expected. Texas has set an example for the whole Union. A little more than a year ago three members of a family named Humphreys were lynched near Palestine. Instead of letting the matter drop, as is too often the case, the State authorities instituted vigorous proceedings to bring the perpetrators to justice. The Governor offered suitable rewards for the arrest and conviction of the criminals, and the Attorney-General used all the powers of his office to bring them to punishment. As a result four of the lynchers were tried, convicted and sentenced for life. Four others, including a Justice of the Peace, have since pleaded guilty and were given a like sentence. It is safe to say that it will be a long time before there is another lynching here in that neighborhood. Indeed, the miserable business has received a salutary discouragement throughout the State. It is worthy of note that the Governor and Attorney-General who so courageously brought the lynchers to justice have just been renominated for their respective offices.

## A CHANCE FOR CALIFORNIA

Archibald Sampson, the United States Minister to Ecuador, who is stopping over at this port for a few days on his way to Washington, has taken occasion in an interview to give us a little wholesome advice about the opportunity that awaits California in South America. After first reciting the native wealth of the Latin republics of the Southern continent, he says that no better field could be secured for American enterprise and capital, especially now that new reciprocity treaties are being entered into between the United States and the South American governments. In Ecuador the provisions of the proposed agreement include the lowering of duties on wine and flour, and as the latter commodity at present brings 25 cents a pound in Quito, it is evident that at that instance at least the necessity exists for a reform of the rate schedule.

Minister Sampson's greatest point, however, is where he calls attention generally to our tardiness in building up commercial relations with the Southern continent. In a desultory way we already have a few steamers and sailing ships calling there, but they almost count for nothing as they simply supply an occasional demand, and by no means represent a steady commercial business. What we should do is to create the demand, instead of being satisfied with the shreds of business already existing there, and that untold opportunities await us is apparent upon the most casual review of the situation.

California is the natural center of trade for all countries on the South American continent, for the only other way they can reach the markets of the world is by a long and venturesome trip around Cape Horn. By the establishing of a thorough trading system with San Francisco, however, the huge demands of the East can be tapped as well as those of the Old World, in addition to which, as purchasing nations, the Southern republics can obtain their supplies here. What it would mean to California if this trade were thoroughly worked up and established is hard to say, but the benefits would certainly be manifold. The Southern countries are rich in ivory, nuts, rubber, sugar, tobacco and other products that we need, and in return we can furnish them with our wines, wheat and other staple articles of commerce. It would be an exchange with the lion's share of the profit on our side, and our trade organizations should take in hand at once the cultivation of such a promising field for local enterprise.

## HOW FIGURES DO LIE.

Census returns from several of the Western cities disprove the old adage that figures cannot lie. They prove the untrustworthiness of much that passes for statistical information. If the figures for this year be correct the city of Omaha has suffered an apparent loss in population of over 26 per cent during the last decade. Now, it is evident to the superficial observer that the actual resident population of Omaha has sensibly increased within that period. The city has more houses, does more business, and has a greater number of industries employing a larger number of people. It has grown and improved in many ways. Its business is prosperous and increasing, and it is steadily being built up.

The census figures relating to population alone would indicate that Omaha is not prosperous; that its population is rapidly declining. It is quite likely that the returns this year are approximately correct, yet the conclusions obviously to be drawn from them are wholly false and misleading. By comparison correct figures are made to give a false result.

In 1890 the census of Omaha was enormously padded. For months the names on all the hotel registers were copied to swell the city's population. The payrolls of concerns having their headquarters in the city but establishments outside were utilized to help the thing. The padding was so open and flagrant as to be a joke. The object was to beat Kansas City.

When the returns were sent in the showing gave Omaha a population some seven thousand in excess of Kansas City, yet it was evident that the latter was much the larger place. It had more of everything that goes to make up a city. Taking the volume of business, the number of houses and the extent of manufactures as a criterion, Kansas City's population should have exceeded Omaha's by 50 per cent. But there was abundant reason to believe that the figures for Kansas City were inflated.

Now the proof has come and both cities have reason to regret the discreditable padding business. Omaha shows an apparent loss of over 26 per cent, while Kansas City, instead of showing a gain of 60 per cent, as was fondly predicted, is credited with an increase of a little over 27 per cent. All the collateral statistics prove that the increase cannot be less than 50 per cent.

Several other Western cities have created a mortifying disappointment for themselves by padding the census during the boom. In this way they contrast unfavorably with more sober-going towns. Thus St. Joseph shows a greater percentage of growth than Kansas City, while Minneapolis barely holds its own with Louisville. The best way to avoid these erroneous and misleading enumerations is to place the census taking in the hands of the Bureau of Statistics.

## PENSION STATISTICS.

Advance figures have been obtained of the report of the Commissioner of Pensions for the fiscal year ending June 30th last, and they furnish such convincing evidence of the liberal policy of the present Administration toward the old soldier as to put at rest all reports that have been circulated to the contrary. With McKinley himself a Union veteran, it might have been considered incredible that he would be opposed to anything presented in the interests of those who fought by his side in the Civil War. All that he did in the line of opposition was to fight the shysters and frauds who have been taking advantage of the country's generosity to fatten at the Pension Bureau by means of false representations, and he will be applauded for this by every man who wore the blue as well as by every thinking citizen in the land.

Proof positive that wholesale frauds have been committed in the past is conveyed by some of the figures prepared by Commissioner Evans. The Union army never at any one time exceeded 1,000,000 men, yet 993,520 persons are now drawing pensions and there are on file 437,104 claims for pensions, in spite of the fact that during the past eleven years 400,000 names have been dropped from the pension rolls chiefly on account of deaths. During last year 45,338 names were added to the rolls and 43,334 removed, making a net increase for the year of 2,004. The sum of \$138,462,172 was paid to pensioners last year, and since 1865 the Government has paid out on this score the enormous amount of \$2,612,329,690. During twelve years, from 1869 to 1881, the total amount paid out for pensions was less than \$75,000,000, while during the past three years the total was \$221,456,103. The average annual payments during the past three years were four times as much as the average from 1869 to 1881. Pending claims not adjudicated number only 437,000 in 1900 as against 635,000 in 1898, and 578,000 in 1897. Of the 45,000 new pension certificates granted last year 1,500 were on account of the Spanish and Philippine wars.

With such statistics before us, who will say that the pension business should not be subjected to the strictest surveillance? There is nothing in our Government that presents such opportunities for fraud and trickery as does the pension law, and in his efforts to stamp out the would-be looters of the treasury, President McKinley will be endorsed by every one save those whose illicit efforts have been frustrated. No person with an honest and just claim has anything to fear. Only those who are attempting to defraud the Nation will find the way blocked, and as their remonstrances will betray them they are likely to remain quiet now that the facts in the case are made known.

## MONEY IS PLentiful.

Time and again during the past few months citations have been made conveying proof of the streak of exceptionally good fortune this part of the country is enjoying. Statistics have been quoted showing the improvement of business, the raising of mortgages, the building of new residences and business blocks, the prosperity of the wage-earners and other such barometrical evidences of the condition of a community, and the fact has been established to the satisfaction of every one but chronic croakers that we are in far better shape as 1900 closes in than we were this time a year ago.

And now has come the crowning proof of all. The State Bank Commissioners recently ordered the nine savings banks of San Francisco to submit reports of their condition at the close of business on Saturday, August 11th, and the statistics demanded are at hand. They show the gain in deposits since July 31, 1899, to be \$7,186,713.71, a phenomenal record, all things considered. The total sum due depositors is \$120,480,827.70, a splendid record when it is remembered that it represents the small savings of the community and not the big fortunes of the rich nor the operating cash of business houses. To this amount must also be added the many millions of dollars invested in building and loan associations, all of which are prospering as they have never done before and furnishing the means for the purchase of homes by the middle classes and small wage-earners.

So fast has money been pouring into the savings banks of late that a rule has recently been adopted by all such institutions in the metropolis limiting individual deposits to \$2,000 instead of \$5,000 as heretofore. Cash is piling up so fast in the vaults that it is proving hard to turn it over at a profit and it will not be surprising if in the near future the rate of interest on loans drops from 6 to 5-1-2 or even 5 per cent so as to induce the freer operation of money. The lowering of dividends from 3-1-3 to 3 per cent can be considered an indication that a reduction of loan interest is a possibility, so altogether the local money market can with justice be said to be in a more flourishing condition than ever before in the history of the community.

A new Democratic evening paper is talked of for San Francisco and its projectors promise to "wake things up" for Bryan. The wake will be on the program all right and they can start getting ready for it right away, for election day will soon be here.

## TRIBUTE TO DR. MCDONALD.

St. Mary's Students Honor Maynooth's President.

An informal reception was given in St. Mary's College by the students to Rev. Dr. Walter McDonald of Maynooth, Ireland. The doctor was attended by his brother, Rev. James McDonald, pastor of St. Charles' Church, San Francisco, and Rev. P. C. Yorke, also of San Francisco. Luncheon was served, after which the students, faculty and honored guests assembled in the hall of the college. An address of welcome was delivered by John P. Callaghan of the senior class in the name of the student body.

John P. Floyer of the senior class also rendered some musical selections, after which the distinguished visitor was introduced by Brother Erminold, and spoke as follows:

"Gentlemen, allow me to thank you for your present kindness and courtesy. Everywhere in California I have been the recipient of the utmost goodness and hospitality. But here especially, in the college of the Christian Brothers, I feel deeply pleased and grateful. Young men, we in Europe know the merits and success of the Christian Brothers as educators. In fair open competition they have outstripped all rivals. Government examinations their pupils have usually carried away not only the first honors but the majority of the others. Their system has changed the whole aspect of education, particularly in my own country—Ireland. Their labors in France are well known. You may judge of them by how the enemies of Christianity regard them. No men are more detested by non-believers than the Christian teacher clad in the sable robe of the Christian Brother.

"But, gentlemen, I would give you some advice on this occasion and no advice do I deem more necessary for young men at college than the inculcation of true honesty and manliness of character. You should now lay solid foundations of virtue and manhood to erect thereon your after-success and usefulness to society. Much depends upon the student's own exertions. He should assist, not thwart, the efforts of his professors. Act so that in after life you may be an honor to yourselves and your alma mater. Gentlemen, I thank you again for your kindly reception."

Rev. P. C. Yorke of San Francisco said: "St. Mary's College graduates have always shown their efficiency in competition during their college days, and in the battle of life have made good records. In turn you will have to compete with other men. If you imitate the old graduates of the college success is yours."

After the exercises were concluded Dr. McDonald met in person many of the members of the faculty and of the student body. He expressed his satisfaction with the excellent surroundings of the institution. Dr. McDonald will remain only a short time in California.

## The Jolly Girl

Often changes to the jaded woman. "I can't see what's come over Mary; she used to be such a jolly girl," was the remark of a young woman visiting a married schoolmate. Marriage changes a woman. The drains and pains which are so often the sequence of marriage rob her of all vitality. Give her back her former strength and she'll be as "jolly" a wife as she was a maid.

Doctor Pierce's Favorite Prescription gives back the lost strength by re-establishing the health of the delicate womanly organs. It dries the drains and stops the pains. It cures ulceration, inflammation and female weakness.

It makes weak women strong and sick women well. "For two years I had been a sufferer from chronic diseases and female weakness," writes Mrs. Allen A. Bolton, of 140 Madison Street, Philadelphia, Pa. "I had two different doctors, and they gave me medicine which only relieved me for a time. My niece advised me to take Dr. Pierce's Favorite Prescription. I concluded that to open a correspondence with you for your advice would be safest, so I have been highly benefited. I find that after five of Golden Medical Discovery and following your advice in regard to local treatment, I am now a strong woman. Accept my sincere thanks for the interest manifested in my case and the happy results obtained."

Sick women are invited to consult Dr. Pierce by letter free. Correspondence confidential. Address Dr. R. V. Pierce, Buffalo, N.Y.

A number of ballads and folk-songs. The two duets are Mendelssohn's "Wert Thou in the Cold Blast" and Donizetti's "L'Alto Ardor." Mrs. Cameron Smith is accompanist and Mr. Harvey Law is organist. AS OTHERS SEE US.

Practical means have been taken to render the Belgian hare popular in Oakland by putting a lunch room where the meat is regularly served, and it is stated that similar places are being established in the larger cities and towns by people raising Belgian hares for the purpose of providing a market for their product.—Santa Ana Blade.

Congressman McCall now has a fair and free track and is not likely to be challenged for many years to come.—Alameda Argus.

Some good people hilariously discredit the idea that there is any danger from annexation, or that, if there is, a new chapter would be a more potent safeguard against it. Oakland is a political power five times greater than Alameda. Some day her citizens will compose their internal thoughts and look around to see what can be done outside. Some day they will organize an assault upon Alameda that will require all our might to withstand. We do not think that time is far in the future. And when it comes let no Alameda think it will be a slight thing. It is reasonable to say that a charter that no legislator could touch is a better bulwark against those who would despoil us of our autonomy than the present charter, which may be done anything to by the State law-making body.—Alameda Argus.

The illustration of the proposed Oakland library building shows a structure of classic architecture and causes the Alameda heart to have a little pang because this city is not to have one like it.—Alameda Argus.

Those Vallejo Republicans who attend the Congressional convention in Oakland Wednesday are all right. They know how to do things up brown. Their great enthusiasm and loyalty cannot be too strongly commended.—Woodland Mail.

Today's primaries stir us in Alameda ever so little, but there are those in Oakland who are exuding beads of perspiration.—Alameda Argus.

Oakland is diverted from its effort to let the water out of Lake Merritt by a ridiculous war. There being no previous division of opinion as to whether the noble Athenians are entitled to try to have a drink by slipping a snail into the orifice, or whether they are to be compelled to plunk up a stated or customary sum when they line up at the fountain.—Alameda Argus.

CHARGE AGAINST AN OAKLAND ATTORNEY.

The County Paper of Martinez, Contra Costa county, of last week contains the following:

"The case of embezzlement, preferred against Attorney Ormsby of Oakland by Judge Jones, was dismissed on Monday last in the Superior Court, Jones not appearing to prosecute at the appointed time. Ormsby defended Jones when the latter was arrested for an assault, on Postmaster Caldwell of Walnut Creek. Jones had a cow and calf and let Ormsby have both, the agreement being, as Jones claims, that Ormsby was to raise the calf and give it to Jones. Jones charged that Ormsby instead of keeping the agreement sold the calf to another party."

TAYLOR IS NAMED AS ONE OF THE ELECTORS.

The announcement is made that State Senator E. K. Taylor of Alameda will in all probability be nominated as one of the candidates for elector on the Republican ticket. He is a friend of the Third Congressional district and set on foot a movement to put him forward for the honor, and as a majority of the delegates to the State convention are said to favor his candidacy, which also meets with hearty approval from the rank and file, it is likely that he will be nominated by acclamation.

## HOT SHOT FOR THE CITY CLERK

Brainard Brown Writes on the Alameda Charter.

ALAMEDA, Aug. 28.—In a further letter to the city clerk, touching the relation to it of the "Vrooman Act," Brainard Brown writes as follows:

"The section of the charter which prohibits Alameda from operating under any new act says:

'The board of supervisors of the City of Alameda, California, shall have the honor to provide for work upon streets, lanes, alleys, courts, places and sidewalks, and for the construction of sewers within municipal limits.' Approved March 15, 1885, and any amendments thereto, supplementary thereto or substituted therefor, are hereby adopted as a part of this charter and shall have the same force and effect as if incorporated in length herein.

"It is evident from the foregoing that Alameda will not under the new charter be precluded from operating under a new act for all new acts on this subject are adopted as part of the charter.

"As to the bond question, it is provided in another section (Sec. 163) that not less than one-half of the indebtedness shall be paid each year and so it is apparent that it would not be possible to issue short term bonds.

"It was the intention of the board of supervisors to prohibit the issuance of short term bonds. That section was fully canvassed by them, and it was held that inasmuch as the incurring of bonded indebtedness is largely for the benefit of the future generation, it should be placed partly on that generation."

## CLAS PRODUCED RETURNS FROM THE DEMOCRATS. "Two Orphans" at the Dewey and "49" at Macdonough.

Althons Parlor, N. S. G. W., turned out in force last night for the production of the benefit (tendered to R. at the Dewey Theater). The play of "The Two Orphans," although well-known to all theatergoers, was produced in such a masterly fashion that there was much of it that was very new.

Two more fascinating little orphans than Fanny Gilette and Edna Pleschke were sufficient to fill the theater, as cute as a pair of twins.

Jeffery D. Williams was a trifle too much of an outland in the first act, but he was a clever and cunning character.

At the Macdonough Theater last evening Joaquin Miller's masterpiece, "49," was given its initial production.

Jack Ortega Identified as a Little Girl's Assailant.

Associated Press Dispatches by The Tribune's Special Leased Wire.

SAN JOSE, Aug. 28.—A prize fighter of this city, was arrested today on a charge of assault and has been identified as the assailant of a little girl.

Ortega was arrested on suspicion, but it is now claimed that his guilt has been established. Great excitement prevails about town, and there is talk of lynching. The prisoner is closely guarded at the County Jail.
